---

Hi Traci – do you happen to have an email communicating this or was it by phone? I'm talking to CMTM about whether to extend the moratorium on rent bidding and part of the reason for that is that OH would need more time to finish the study. If not in writing, I'm happy to talk to whoever is working on it if that's ok with you!

Thanks!  
Asha

Yes – I told Faride that OH is pushing to get the Fort Lawton Redevelopment Plan completed which is due to committee in April /May and the same person working on that report is assigned to the rent bidding report – so it needed to move to June.

Yes, looks good to me.

One additional note – technically the bill says that the report must be submitted to the Chair within 12 months of the enactment of the legislation. A report in June means OH will be out of compliance, but in dealing with this in the context of the Auditor's office, La has said there isn't really any consequence if the report is late.

Per CM Mosqueda – OH btw does not have capacity to get to this until June..I've told Faride this news.

Edit as you desire –
